Frowi Care

Cleaning and maintenance for stainless steel
Ready-to-us Maintenance Cleaner, unmarked

GISCODE: GU0

This product (Frowi Care) is a waterfree mixture consisting of different organic components with a low content of solvents.

The following instructions are related to proper handling according to the manufacturer's instructions with the undiluted, ready-to-use product (application by using original spraying bottle).

Product-related operation instructions are not required due to low health risks when the product is used according to the manufacturer's instructions. Refer to **operating instructions** under the topic "Working in wet conditions - Maintenance cleaning/glass cleaning".
