Packaging	Art.-No.	Per Box	Per Palette
500 ml spray bottle (ready-to-use)	2535	6	456
1 l PE-bottle (refill concentrate)	2536	10*	360

\* Includes two dosing caps (20ml)

### Properties:

Toplan Go! is a versatile, ready-to-use maintenance cleaner spray. Thanks to its fast and effective cleaning performance and the time-saving method of application, it is a perfect, efficient solution for professional cleaning service providers and the hospitality business. Powerfully removes general dirt (everyday stains, hand and finger marks or nicotine stains as well as marks left by grease or creams). Toplan Go!'s special formula makes wiping considerably easier and reduces the effort required. Toplan Go! makes surfaces shine again and leaves a pleasant, fresh fragrance.

Under the CLP Regulations, this cleaner requires no label.

### Field of Application:

Suitable for cleaning all waterproof surfaces such as plastic, glass, metal, tiles or painted surfaces, as well as all smooth, matte or textured interior surfaces.

### Application:

For daily general cleaning purposes, spray some Toplan Go! foam onto a suitable microfibre cloth and work it into the surface manually. The surface will dry streak free. No need to rewipe.

### Dosage:

Fill the spray bottle with approx. 460 - 480ml of tap water (up to the lower end of the bottleneck) to refill; then add 20 - 40ml of the Toplan Go! concentrate from the one litre bottle. The enclosed dosing cap (20ml) makes it easy get the dosage right.

### Ingredients:

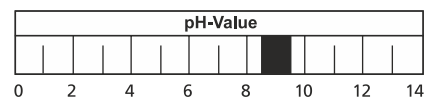

<5% non-ionic tensides, <5% anionic tensides, polycarboxylates, fragrance substances, laurylamine dipropylenediamine, benzisothiazolinone, sodium pyrithione.

### Productcode: GU 40

This product is intended for commercial use only. Safety data sheet available on request or at [www.fala.de](http://www.fala.de). For safety instructions pay attention to product label or safety data sheet.

**Refill-System:** Once the ready-to-use cleaner solution in the 500ml spray bottle has been used up, the bottle can be refilled again using the refill concentrate from the one litre bottle (see dosage). This concept is cost-efficient and conserves resources; one bottle of concentrate makes 50 ready-to-use solution refills. It creates less packaging waste and saves money, and also reduces the amount of transport-related carbon emissions.

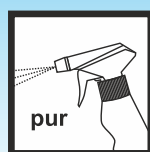

The information contained herein corresponds at the time of publication to our best present-day knowledge. It is responsibility of the user to ensure that the product is suitable for the intended application.

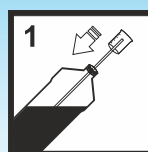

For manual application  
on all surfaces

No rewiping required;  
dries streak free.

Use undiluted

To refill the 500ml spray bottle, use 460 - 480ml of water and 20 - 40ml of concentrate from the one litre bottle. A dosing cap is used to ensure the correct dosage.
